DETERMINING STORE/BRANCH ON THE ERA SYSTEM

To assist the dealer in identifying the store and branch number, ask them to log into ERA and type in 77. Below is an example of what they may see, depending on their access, they may also be taken directly to the next screen shot.

They should then choose the line item for the appropriate store from the list; in this example, we chose #3.

From the next screen you will be able to verify the store and branch information. In this example, the dealership is store 4, Accounting branch 1.

Please note that the line item # from the main screen does not always coincide with the actual store #.

This document contains confidential information between Reynolds and Reynolds and the specified certified RCI Vendor.

Unauthorized access is strictly prohibited.
